

# GUARANTEE AND PERFORMANCE OF ABRASIVE FLOW SOLUTIONS

## MECHANICAL PERFORMANCE

We guarantee that every Abrasive Flow Solutions Valve will be constructed of new materials and be free of defects of material and workmanship. The materials will be our standard materials of construction and agreed to by the buyer. However, the materials are not guaranteed against corrosion or erosion. This GUARANTEE extends for TWENTY-FOUR (24) MONTHS after installation, or THIRTY (30) MONTHS after shipment, whichever occurs first.

## LIMIT OF LIABILITY

We will not pay normal transportation charges related to the repair or replacement of any valve, we will not be responsible for the removal, loading, installation, or other similar expenses, or for contingent or consequential damages. All equipment manufactured by others, but included as part of Abrasive Flow Solutions Valve, will be subject to that standard guarantee as issued by the manufacturer of such equipment. In no event will our liability exceed the purchase price of the product for which liability is claimed.
